Subject: Performance

Dear Harvey,

It is hard to express our complete satisfaction for the expert job you did for us.

~~From the moment you started on our case , to the finish, you were very~~
professional and knowledgeable about how to structure our claim for optimum payout from our insurance company.

When we thought the blackest cloud was over our project, you took over talking to three different assigned insurance agents, set up mediation when all other attempts to bring them to the table failed and then carried through to help us obtain our final monies from our insurance company.

We have passed your name and reputation of being fair and on top of your cases to everyone we come across that needs a hand and seem to be stalled from getting their work done or a fair settlement from their insurance company.

It took us from August 13th, 2004 and through October of 2005 to have our project completed, but the delay was due before you took our case. Only then did it become expedited and then to completion.

Harvey, you were a God Send for us and we appreciate everything you did to bring our house back to the grand status she was and is today.

Very truly yours,

Raymond and Kathleen Duranti
