To Whom It May Concern

Re: The BCH Group

Dear policy holder,

It is with great pleasure that I write this letter of recommendation regarding Carlos Martinez and Harvey Wolfman.

My law firm dedicates itself to only handling property insurance disputes and insurance coverage issues; I have been in the insurance business for 14 years and have worked with many public adjusting firms. I routinely hire Carlos and Harvey to evaluate and adjust the damages on my cases and provide me with their perspective regarding the policy coverages.

These gentlemen have over 40 years combined experience in the business of insurance claims and I name them as my experts in litigated cases on the verge of trial. My experience with these two gentlemen has been nothing short of exemplary. They are diligent in their work, professional in their work product, and accommodating in the curve balls I throw at them. I not only trust them with my clients but also refer them to my friends and family. These gentlemen are truly the best of the best.

I would be happy to speak with you about these two fine professionals should you desire.

Sincerely,

Javier Delgado

Javier Delgado, Esq.
