

To whom it may concern,

After Hurricane Charly destroyed our home in Aug. of 2004, we had nothing but trouble from our insurance co. We did not know where to turn. A friend of ours gave us a flyer with the name The BCH Group (he had said we needed a public adjuster) Now we didn't know anything about public adjusters. So we called them and Mr. Harvey Wolfman came. He explained what they did, read our policy came in and saw our damaged. He knew immediately what we needed and what we were entitled to. From that point forward everything was in his hands. We did not have to worry about a thing, no haggling with insurance, nothing everything was taken care of by his company, especially Mr. Wolfman are professional, courteous, and pleasant to work with. They kept us informed returned phone calls in a timely manner and gave us peace of mind. We got everything we were entitled to we would not have gotten (because we saw ins. adjusters before calling them) had we done this ourselves plus it was taken off our shoulders and Mr. Wolfman did our battling for us. We hope we never have to deal with them again however, in a heartbeat we'd call them again caught in any situation with any home insurance (or anytime an adjuster would be needed) We highly recommend this Company to anyone that has to deal with insurance adjusters because they work for the insurance co. interests and Mr. Wolfman and his company are there for your interests.

Very Truly Yours,

*Walter Kuchen*
